(425) 271-4408

Description: The applicant is requesting preliminary short plat approval for the subdivision of an existing 210,567 square foot (4.83 acre) site into 5 lots and 3 tracts (Tracts A, B, and C). The project site is located within the Residential-1 (R-1) zone and the May Valley Urban Separator. The proposed lots would have areas of: 14,822 sq. ft. (Lot 1), 14,252 sq. ft. (Lot 2), 16,188 sq. ft. (Lot 3), 23,664 sq. ft. (Lot 4), and 27,378 sq. ft. (Lot 5). Tract A is proposed as an open space tract, Tract B is proposed as an irrigation pump house tract, Tract C is proposed as a private street. Access to the proposed lots would be provided via a 26-foot wide private street (Tract C), which terminates in a hammerhead turnaround. An existing single family residence is proposed to remain on Lot 4, the existing asphalt driveway serving Lot 4 would be removed as part of the short plat development, and a new access driveway would be provided off of the proposed private street (Tract C). Sensitive slopes (slopes with grades between 25 and 40 percent) and a high erosion hazard area are mapped on the project site.

Description: The applicant is requesting Preliminary Plat approval and Environmental (SEPA) Review for the subdivision of an existing 210,594 square foot (4.83 acre) project site into 15 lots and 3 tracts (Tract A is a stormwater detention tract, Tract B is a secondary emergency access tract, and Tract C contains a cellular tower and associated facilities). The project site is located within the Residential-4 (R-4) zoning designation. The proposed lots range in area from 8,228 square feet to 15,286 square feet. There are 3 existing single family residences on the project site, two are proposed for removal, one is proposed to remain on Lot 2. Access to the proposed lots is proposed via a new public street extension off of NE 3rd Court, which terminates in a hammerhead turnaround. A secondary emergency access road (Tract B) would provide secondary access to NE 4th Street in the event of an emergency. No critical areas are mapped on the project site.

Description: The applicant is requesting Preliminary Short Plat approval for the subdivision of an existing 57,676 square foot (1.32 acre) site into 7 lots and one tract (Tract A) for the future construction of single family residences. The project site is located within the Residential-8 (R-8) zone. The proposed lots range in size from 5,002 square feet to 6,453 square feet. Tract A is a park, drainage facility, and access tract and totals 7,253 square feet. Lots 1-4 would have frontage along Duvall Avenue NE and Lots 5-7 would have frontage along Chelan Avenue NE. Vehicular access to each lot would be provided via the extension of Chelan Place NE, a public alley through the site to the northern property boundary. No critical areas are mapped on the project site.

RENTON, WA 98059

Description: The applicant is requesting Preliminary Short Plat approval, a Modification to the street standards (RMC 4-6-060) for a reduction in the required right-of-way dedication width, and Environmental (SEPA) Review for the subdivision of an existing 107,639 square foot (2.47 acre) site zoned Residential-4 (R-4) into 6 lots for the future construction of single family residences. The applicant is proposing to utilize the small lot cluster provisions, which would allow them to utilize the R-6 development standards in exchange for setting aside 20 percent of site site as open space with a soft surface public trail. The proposed lots would range in area from 7,173 square feet to 32,018 square feet. An existing residence and detached outbuilding are proposed to remain on Lot 1. The proposed short plat would also result in the creation of 3 tracts (Tracts A, B, and C) and a Private Road C. The Private Road is proposed to provide access to the abutting Weston Heights Plat (LUA14-000958) to the south of the project site. Access to the new lots is proposed via residential driveways onto NE 7th Place. A Category 3 wetland is mapped on the project site. A Category 3 wetland requires a 75-foot buffer. This applicant is proposing a 25 percent buffer reduction with enhancement, which would result in a 56.25-foot enhanced buffer.

Description: The applicant is requesting approval of a 2-lot short plat and a street modification. The site is 100,188 square feet (2.3 acres) and is located at 3106 and 3112 Talbot Rd S (APN: 302305-9028), adjacent to Winsper Division No. 1 subdivision. The property is in the Residential-8 (R-8) zoning district. There are two (2) single family residences (3106 and 3112) located on this parcel that gain access to the site from Talbot Road S. The proposed short plat would subdivide the parcel into two (2) residential lots, leaving both existing houses undisturbed, and one (1) Native Growth Protection Tract (Tract A). The two proposed residential lots are 41,970 SF (Lot 1) and 40,200 SF (Lot 2) with an average lot size of 41,085 SF. The residential density is 0.96 dwelling units per net acre. Access to the new residential lots is proposed via a 16-foot wide driveway from S 32nd Pl through Winsper Division No. 1 Subdivision (Tract H) via the 24-foot wide dedicated ingress/egress easement area. There are 142 significant trees on the site and the applicant is proposing to retain all of the original trees. The eastern portion of the site is comprised of established forest with a Category III wetland that extends off-site to the east and south. No impacts to critical areas onsite are proposed. The application is also requesting a street modification from the required half-street frontage improvements along S 32nd Pl, along the access tracts, to maintain the existing improvement condition of the neighborhood. The applicant has submitted a Critical Areas Study and a Geotechnical Engineering Study with the application.

TONY LY
2816 KENNEWICK PL NE
RENTON, WA 98056

Description: The applicant is requesting environmental review and critical areas exemption to remove a 27 linear foot unpermitted concrete block wall along a stream channel located at 2816 Kennewick Pl. NE. The applicant's proposal is in response to Code Compliance Case 15-000489 for unpermitted encroachments into a Type Ns stream in the rear yard of an existing single-family residence. Specifically, the property owner installed approximately 52 concrete masonry unit (CMU) blocks below the ordinary high water mark (OHWM) without prior approvals. The subject property also contains an unpermitted removable footbridge abutting the aforementioned concrete block wall.

Restoration of the stream bank with erosion control measures and vegetation will occur following removal of the wall. Restoration activities include regrading the bank to a slope of 2H:1V, which will allow the germination of riparian vegetation that will be planted. Coir logs, mulch, and straw will be placed in areas disturbed by block removal for erosion control. The City issued a DNS-M for the block removal and restoration on September 12, 2016. Mitigation measures are attached to this Certificate of Exemption as conditions of approval. The City's critical areas map identifies the stream as a tributary to May Creek with a classification of Type Ns or non-fish and seasonal. The subject property contains a single-family residence and is zoned Residential-8.

RENTON, WA 98056

Description: The applicant is requesting a Shoreline Substantial Development Permit and Environmental (SEPA) Review for the construction of a 140-foot long pier for the private use of a single family residential property owner. The main walkway will begin with a 3'-11" width for the first 30 feet. The remainder of the walkway is to be 5'-11". The pier will have a 5'-11" by 23'-1" ell and a 1'-11" by 23'-1" finger ell. The proposed pier is to be constructed with galvanized steel piles, galvanized steel caps, ACZA treated stringers, glulam sides, and Thru-Flow plastic grating to allow for light penetration. The proposed pier has two 10" diameter mooring piles. The applicant proposes to install a freestanding boatlift and a freestanding 8-foot by 10-foot grated platform lift. As mitigation for this project, the applicant proposes to create a more natural beach and to implement a planting plan. The proposed shoreline work entails bank stabilization behind the ordinary high water line, the removal of debris and a concrete bulkhead and steps, the placement of 50 cubic yards of 2" minus spawning gravel (1½" minus gravel may be used if 2" minus gravel is unavailable), and installation of native plantings. The project site is located within the Shoreline Residential designation and is within Lake Washington Reach E. The site is zoned Residential-8 (R-8).

KENNETH E NEAULT
PO BOX 2230
ISSAQUAH, WA 98027

Description: The applicant is requesting approval of a 2-lot short plat. The site is 22,912 square feet (0.53 acres) and is located at 1909 Jones Ave NE (APN 3344500120) and would be for the future development of one new single family home. The property is in the Residential-4 (R-4) zoning district. The proposed residential lots are approximately 9,993 SF and 10,732 SF in area with an average lot size of 10,363 SF. The residential density is 4.2 dwelling units per net acre. Access is proposed from a shared driveway tract from Jones Ave NE along the north property line. A second driveway approach is proposed to be retained to the existing single family home. The native soils consist primarily of silty sand with gravel consistent with glacial till (QvT). The existing single family home located on the property would be retained. A building construction permit would be required to remove a small portion of the north end of the home to accommodate the ingress/egress tract to the rear lot. The applicant has proposed to retain the lone significant trees onsite. The applicant has submitted a Geotechnical Engineering Study and a Preliminary Technical Information Report with the application.

Owner:	EARL INGRAM. 1411 SHATTUCK AVE S RENTON, WA 98055 (425) 228-3113 HIEARL@YAHOO.COM		
Description:	<p>The applicant is requesting an Administrative Variance from the maximum height and front yard setback requirements for the construction of a new 2,310 square foot single family residence with a 672 square foot attached garage. The project site is located within the Residential-6 (R-6) zone. The R-6 zone requires a minimum front yard setback of 25 feet and permits a maximum height of 2 stories with a wall plate height of 24 feet. Shed roofs are permitted to exceed the 24-foot maximum wall plate height provided the average height of the shed roof is 24 feet. The applicant is proposing a minimum front yard setback of 20 feet, and a shed roof with an average height of 29 feet in 3 stories. Access to the site is proposed via a shared driveway off of Shattuck Avenue S. No critical areas are mapped on the project site.</p>

RENTON, WA 98055

Description: The applicant is requesting a 9-lot short plat located at 16433 & 16451 111th Avenue SE. The subject properties combined comprise of 79,710 square feet (1.83 acre) in size and are located in the R-8 zone. Lot sizes will range from 5,948 SF to 7,119 SF in size. All existing structures will be removed as part of the development. Critical areas exist off-site with a portion of a stream buffer extending onto the westerly portion of the subject property. All existing trees outside the critical area buffer are proposed to be removed; replanting will occur as part of the development. The drainage plan proposes a detention and water quality treatment vault on the southeast corner of the site. Access to all proposed lots will be from a newly proposed right-of-way through the center of the site. Frontage improvements will be installed within the existing right-of-way on 111th Avenue SE.

(925) 377-8882

Description: The applicant is requesting preliminary short plat approval for the subdivision of an existing 16,161 square foot (.37 acre) site into 2 residential lots and 1 tract. The project site is located within the Residential-8 (R-8) zone. The proposed lots include a 5,677 square foot lot (Lot 1) and a 7,903 square foot lot (Lot 2) with a net density of 6.5 du/ac. Tract A is proposed as a 2,581 square foot driveway to be used for access by the rear lot. The property is bordered to the west by Aberdeen Ave, and to the east, north, and south by single family residential lots. All existing structures on the site will be removed to accommodate the proposed lot division. Access to both lots will be provided via the shared driveway off of Aberdeen Ave NE. The applicant is proposing to retain the two existing onsite trees. A Wellhead Protection Area Zone 2 was mapped on the subject property. The applicant has submitted a Geotechnical Engineering Study and a Preliminary Technical Information Report with the application.
